Our experienced management and support services team will assist you with any event planning and preparation and, if required, will attend any pre-event safety meetings on your behalf.

Safety is always of paramount concern for events and we are committed to good health and safety working practices.

WAFF SECURITY BRAND AND PRIDE

WAFF SECURITY PERSONNEL

We take a peculiar approach to the business of security provision for our clients. Many Security companies in Kenya

employ scarcely trained and vetted security guards. We undertake thorough training and vetting before posting our guards at the sites.

Our guards are highly trained, groomed and uniformed. We have a comprehensive strategy to mitigate the possibility and opportunity for theft of property or injury to persons within the facility.

VETTING AND SCREENING OF PERSONNEL

The quality we bring to your environment begins long before you see our security guards. Waff security makes the recruitment and training of our personnel and training our key to success in the security industry.

PATROL

The authenticity of our security strategy can be portrayed in the manner our guards undertake patrols at and around the site in undetermined patterns.

UNIFORMS

Our uniformed security guards are outfitted with professional uniforms. Our corporate general orders require that our personnel keep their uniforms pressed and clean at all times. Their shoes are polished, military style and men are clean shaven with neat haircuts. Our female personnel are held to similar standards. We pride ourselves in the appearance of our personnel, as they are representing our agency in your facilities.

24 HOUR CUSTOMER SERVICE

Our customer service representatives are always available around the clock for your convenience. Our guards are always monitored and supervised by experienced

security team. Any security challenges are always reported to management immediately for prompt action.

QUALITY ASSURANCE

The company operates a system that regularly evaluates its processes and customer needs, and has set quantifiable objectives with plans in place to ensure that they are reviewed year on year for improvement.

It is the policy of Waff security to maintain, on a continual basis an effectively managed Quality Assurance programme which will assure customers that the services supplied conform to the laid down procedures or disciplines of the company, and which will ensure that the customer's needs and expectations are fully met.
